Campaign Results (09/18/26–10/02/26)

- The campaign generated 869 engagements from 5,953 impressions, maintaining an excellent 14.6% CTR at \$0.17 per engagement.
- Versus the previous period, engagements fell 6%, impressions fell 7%, and CPC increased slightly from \$0.16 to \$0.17, indicating stable efficiency but softer volume.
- The COO story produced 864 engagements—over 99% of the total—while the other ads received too little delivery to be evaluated meaningfully.

Strategic Proposals

- Keep the COO story as the control and create new first-person narratives combining a real accounting-firm problem, Chase's experience, and a practical lesson.
- Separate ad sets so LinkedIn allocates budget to the new ads.
- Pause the "10/10 operations" and replace it for content with good engagement + CTA to Ops Notes or to the Operations Assessment. Example: "We tried offshore. It did not work." [Post | LinkedIn](#)

LinkedIn Organic Content Analysis

Content Performance Summary

What Worked Best

- Engagements increased 40% despite impressions falling 21%
- Top post: The September 25 personal announcement (49% of the period's total engagement)
- The evergreen COO story remained the main reach driver, generating 7,410 impressions.

Why It Worked

- Personal announcements create curiosity and emotional connection.
- The COO story combines first-person experience with operational credibility, keeping it relevant well beyond its publication date.
- The bottleneck post connected a recognizable problem to a specific solution.

Strategic Proposals

- Replicate the personal-story format, but connect each story directly to an accounting-firm challenge and practical takeaway.
- Strengthen accounting-specific language and collaborations: only 5% of content viewers were from accounting, versus 10% of the follower base.
- Track post-level assessment clicks, qualified completions, and booked calls with UTMs before allocating more effort based on engagement alone.

Ops Notes #10 Results

- Issue #10 improved significantly: open rate rose from 28% to 37%, while total opens increased 53% (from 83 to 127)
- Click rate increased from 0% to 5.9%— a 15.7% click-to-open rate—showing the topic, practical examples, and CTA generated interest.
- List health needs attention: unsubscribes increased from 0.7% to 1.77%, skipped contacts reached 8.02%, and no conversions were recorded.

Strategic Proposals

- Continue using specific, provocative subjects like “When you want to hire, raise your fees” and content built around real firm data and practical tools.
- Place the diagnostic-call CTA after the first case study and repeat it at the end, using benefit-driven copy such as: “Review your firm’s margins with Chase.”
- Verify booking conversion tracking and add UTMs

Campaign Results

- The new campaign generated 9 leads from \$228.58 in spend, producing a \$25.40 CPL from 1,609 impressions.
- Qualified-lead rate improved from roughly 4% in the original campaign to around 50%
- All leads came from [Ad 3](#) and the interest-based ad set; the lookalike produced no leads.

Strategic Proposals

- Allocate most of the budget to the interest ad set, and wait for 20–30 leads before scaling.
- Send QualifiedLead, assessment completion, and booked-call outcomes back to Meta so optimization moves toward genuine accounting-firm prospects rather than form submissions.

Campaign Name	Delivered	Opens	Clics	Conversions	Open Rate (of delivered)	Clic Rate (of Delivered)	CTR (of Opnes)	Hard Bounces	Unsubscribed
CPAAcademy - Email 1 to Attendees	208	36	1	0	171%	0.48%	2%	0	3

Levy -Email 1 to Attendees	28	11	0	0	39%	0%	0%	0	0

Summary

- **CPA Academy Email 1:** Reached the largest audience (208 delivered) with a 17.1% open rate, but produced only one click and three unsubscribes.
- **CPA Academy Email 2:** Had the weakest open rate (16%) and similarly low click performance, indicating the subject line or message was less compelling.
- **CPA Academy Email 3:** Performed best within the CPA Academy sequence—17% open rate, highest click rate (0.50%) and zero unsubscribes—although it recorded one hard bounce.
- **Levy Email 1:** Achieved the strongest open rate by far (39%), likely helped by the smaller or warmer 28-person audience, but generated no clicks or conversions.
- **Overall:** Opens show some interest, but the sequence produced no conversions and only three total clicks, so the CTA, offer positioning and link prominence need improvement.

Recommendations for upcoming events

- Plan each event targets for registrations, qualified leads and scheduled discovery calls.
- Prioritize webinars as they have proven to attract larger audiences and produced results in the past; promote them through LinkedIn, email and paid retargeting.
- Build the complete webinar funnel: pre-event promotion, strong live CTA, attendee/no-show segmentation, 3–5 follow-up emails and direct sales outreach within 24–48 hours.
- Match each event to a specific offer: owner-bottleneck content → Operations Audit; metrics/profitability content → humanOS; complex operational challenges → custom engagement.
