Campaign Results (09/03/26–09/17/26)

- We achieved a 14.43% CTR and \$0.16 CPC increasing engagement by 62%, CTR nearly doubled, and CPC decreased by 64%.
- The COO story remained the clear winner, producing 922 engagements—more than 99% of the campaign's results—at a 14.51% CTR and \$0.16 CPC.
- The “10/10 operations” ad continued to underperform, generating only one engagement from 29 impressions. The new video received just 35 impressions, so there is not enough data to evaluate it properly.

Campaign Results (24 hs)

- 56 engagements generated from 1,629 impressions with a 3.44% CTR and \$0.52 CPC.
- The CPM of \$17 indicates efficient early delivery.
- These are encouraging initial results, but is too early to identify performance trends.

☐	 Chase Damiano A firm owner asked me recently what 10 out of 10 operations looks like. They're at 14 people and growing ID: 1541175826 - Video 	\$0.51 ↓ 96.1%	1 Engagements ↓ 90%	\$0.51 ↓ 60.9%	29 ↓ 93.7%	1 ↓ 90%	3.45% ↑ 59.7%	-	\$17.65 ↓ 37.6%	\$0.51 ↓ 60.9%

Strategic Proposals

- Create new personal narratives with the structure = real operational problem + Chase's experience + a practical lesson.
- Place the new ads in separate ad sets to ensure they are getting enough budget to generate relevant data.
- Pause or rewrite the "10/10 operations" to perform at the level of the COO story.
- Retarget people who engaged with the campaign using the Operations Assessment as lead magnet, then track qualified leads and booked calls.

LinkedIn Organic Content Analysis

Content Performance Summary

What Worked Best

- Impressions fell only 4% compared to the previous period (17,278), but engagements fell 75%, from 637 to 159.
- September 14 was the strongest day with 60 engagements, while September 16 delivered the highest reach with 3,607 impressions.
- The Accounting professional audience decreased from 16% to 10%.

Why It Worked

- Partnership content benefited from Gusto's credibility and gave the audience a specific, timely reason to pay attention.
- Posts addressing growing client volume and operational pressure connected directly with accounting-firm owners' challenges.
- Podcast and personal-experience posts continued to outperform more generic operational advice.
- The audience still contains valuable decision-makers: 45% are owners, partners, directors, or CXOs.

Strategic Proposals

- Create more first-person posts tied directly to accounting-firm operational problems.
- Improve engagement on high-reach posts with stronger opening hooks, concise takeaways, and questions that invite responses.
- Recover accounting relevance by using more niche examples, terminology, collaborations, and conversations involving firm owners.
- Use specific UTM's to track assessment clicks, completions, and booked calls by post to identify which content generates qualified demand.

Ops Notes #9 Results

- While deliverability remained strong (98%), the open rate (28%) decreased compared to the last issue (39%).
- Post-open engagement was the main weakness, with zero clicks or conversions; the cause is likely the length of the content combined with a late CTA

Strategic Proposals

- Make future issues shorter, around one core lesson and remove repetition between the main explanation and the practical tool.
- Insert one clear CTA into the first half of the email and repeat it briefly at the end.
- Use a specific, benefit-driven CTA. **This is an** example of how we could rephrase the CTA **for** this issue:

Campaign Results

- Since we switched the forms the lead volume decreased and the cost per lead increased.
- Only one of the 13 leads appeared connected to an accounting or tax firm, resulting in a 7.7% potentially qualified-lead rate.
- Ad 1 delivered the cheapest leads at \$6.24 each, but none matched the target audience.

Strategic Proposals

- Add “What type of firm do you own or lead?” and disqualify prospects outside accounting, tax, bookkeeping, or CAS firms.
- Review the contacts in the lookalike audience and clean it if applicable.

Campaign Name	Delivered	Opens	Clics	Conversions	Open Rate (of delivered)	Clic Rate (of Delivered)	CTR (of Opnes)	Hard Bounces	Unsubscribed

Levy -Email 1 to Attendees	28	11	0	0	39%	0%	0%	0	0

Summary

- **CPA Academy Email 1:** Reached the largest audience (208 delivered) with a 17.1% open rate, but produced only one click and three unsubscribes.
- **CPA Academy Email 2:** Had the weakest open rate (16%) and similarly low click performance, indicating the subject line or message was less compelling.
- **CPA Academy Email 3:** Performed best within the CPA Academy sequence—17% open rate, highest click rate (0.50%) and zero unsubscribes—although it recorded one hard bounce.
- **Levy Email 1:** Achieved the strongest open rate by far (39%), likely helped by the smaller or warmer 28-person audience, but generated no clicks or conversions.
- **Overall:** Opens show some interest, but the sequence produced no conversions and only three total clicks, so the CTA, offer positioning and link prominence need improvement.

Recommendations for upcoming events

- Plan each event targets for registrations, qualified leads and scheduled discovery calls.
- Prioritize webinars as they have proven to attract larger audiences and produced results in the past; promote them through LinkedIn, email and paid retargeting.
- Build the complete webinar funnel: pre-event promotion, strong live CTA, attendee/no-show segmentation, 3–5 follow-up emails and direct sales outreach within 24–48 hours.
- Match each event to a specific offer: owner-bottleneck content → Operations Audit; metrics/profitability content → humanOS; complex operational challenges → custom engagement.
