Campaign Results (08/21/26 - 09/03/26)

- Campaign generated 570 engagements from 7,766 impressions, with a strong 7.34% CTR and \$0.45 CPC.
- The COO story was the top performer, producing 88% of engagements at \$0.34 CPC.
- The “10/10 operations” didn’t performed as well, with a 2.07% CTR and \$1.44 CPC.

Strategic Proposals

- Allocate more budget to the COO-story format and test similar personal narratives.
- Pause or rewrite the weakest ad with a clearer pain point, outcome, and call to action.
- Track booked calls and qualified leads—not just engagement—to measure real campaign success.

Ops Notes #8 Results

- Deliverability was strong: 98.7% delivered, with no spam complaints and only 0.33% unsubscribes.
- The 39.93% open rate is healthy, suggesting the newsletter topic and/or subject line attracted attention.
- Engagement after opening was weak: only 3 clicks (0.99% CTR; approximately 2.5% click-to-open) and no conversions.
- The content offers valuable, relevant advice, but its long-form structure places the practical tool and CTA relatively late.
- Hard bounces (1.3%) and skipped contacts (6.65%) indicate that the list should be cleaned and reviewed.

Strategic Proposals

- Follow-up: Send a targeted plain-text email to the 6.8% who clicked with a brief case study or testimonial specifically showing the result of the audit and inviting them to submit the form.
- Subject Line Optimization: A/B test benefit-driven subject lines against the functional "Recap" title to push open rates toward 30%.

LinkedIn Organic Content Analysis

Content Performance Summary

What Worked Best

- Personal, story-led posts performed best: the Intuit Connect post generated 177 engagements, the personal update 163, and the podcast post 134.
- The period delivered 17,992 impressions, 637 engagements, and 53 new followers; engagement peaked on August 24, August 26, and September 2.
- Content reached a relevant audience, including 16% from accounting and a strong concentration of senior, owner, and executive-level professionals.

Why It Worked

- First-person experiences feel authentic and create stronger emotional connection than generic advice.
- Timely topics, personal moments, and external credibility—such as events and podcasts—make posts more shareable.
- The content connects naturally with the audience's challenges around leadership, growth, and operational complexity.

Strategic Proposals

- Put the key insight and practical “4×4 Hero Ball Self-Check” near the beginning, using shorter paragraphs and clearer subheadings.
- Strengthen the CTA with a more specific benefit, such as: “Take the 15-minute Operations Assessment.”
- Add a prominent CTA near the top and repeat it at the end; test button copy, placement, and subject lines.
- Clean the list, investigate skipped contacts, and segment future issues for accounting-firm owners, partners, and operational leaders.

	Lead Gen - Ops Assesment (Native form)	↓ 29 Leads (Form)	\$4.02 Per Lead (Form)	\$15.00 Daily	\$116.64	7,361	6,048

- The campaign generated 29 actions at \$4.02 per result, but the leads lacked quality.
- Ad 2 generated 83% of the actions, making it the strongest volume driver, while Ad 1 had the lowest cost per result; neither can be judged fully without qualified-lead data.
- The recent shift to tighter interest-based targeting and a native form with qualifying questions directly addresses the campaign's main weakness: lead relevance rather than lead volume.

Strategic Proposals

- Allow the new targeting and form changes enough time to generate a meaningful sample before making further judgments.
- Keep testing creative variations that clearly pre-qualify the audience by mentioning the target firm type and operational challenge.
- Retarget engaged users who did not submit the form with stronger proof points, case studies, and a clear Operations Assessment offer.

Levy -Email 1 to Attendees	28	11	0	0	39%	0%	0%	0	0

Summary

- **CPA Academy Email 1:** Reached the largest audience (208 delivered) with a 17.1% open rate, but produced only one click and three unsubscribes.
- **CPA Academy Email 2:** Had the weakest open rate (16%) and similarly low click performance, indicating the subject line or message was less compelling.
- **CPA Academy Email 3:** Performed best within the CPA Academy sequence—17% open rate, highest click rate (0.50%) and zero unsubscribes—although it recorded one hard bounce.
- **Levy Email 1:** Achieved the strongest open rate by far (39%), likely helped by the smaller or warmer 28-person audience, but generated no clicks or conversions.
- **Overall:** Opens show some interest, but the sequence produced no conversions and only three total clicks, so the CTA, offer positioning and link prominence need improvement.

Recommendations for upcoming events

- Plan each event targets for registrations, qualified leads and scheduled discovery calls.
- Prioritize webinars as they have proven to attract larger audiences and produced results in the past; promote them through LinkedIn, email and paid retargeting.
- Build the complete webinar funnel: pre-event promotion, strong live CTA, attendee/no-show segmentation, 3–5 follow-up emails and direct sales outreach within 24–48 hours.
- Match each event to a specific offer: owner-bottleneck content → Operations Audit; metrics/profitability content → humanOS; complex operational challenges → custom engagement.
