Campaign Results (07/24/26 - 08/20/26)

- Engagement: a 3.4% is high for LinkedIn, proving the podcast clip and storytelling format is highly resonant.
- Efficiency: The \$1 CPC is extremely low for a professional services audience, allowing to buy high-quality attention at a fraction of the market rate.
- Conversion Gap: While engagement is high, the "Cost per Result" is currently tied to engagement rather than lead capture, leaving room for a direct conversion layer.

Strategic Proposals

- Re-launch Lead Gen Forms: Use the top-performing "COO Breakdown" asset with a LinkedIn Lead Gen Form to capture emails without users leaving the platform.
- Retargeting Layer: Create an audience of "Engagers" and retarget them with a direct offer for the Operational Audit to bridge the trust-to-action gap.
- A/B Test Visual Hooks: Test a high-contrast "Single Image" quote card from the podcast to see if it can lower the \$34 CPM while maintaining the 3%+ CTR.

Ops Notes #7 Results

- **Results:** 323 delivered, 68 opened (21% rate), 22 clicked (6.8% rate)
- **Engagement:** The 32% click-to-open rate shows high interest in the recap format and specific pain points.
- **Issue:** Zero conversions despite high click volume indicates a friction point between the content and the form submission process.

Strategic Proposals

- Follow-up: Send a targeted plain-text email to the 6.8% who clicked with a brief case study or testimonial specifically showing the result of the audit and inviting them to submit the form.
- Subject Line Optimization: A/B test benefit-driven subject lines against the functional "Recap" title to push open rates toward 30%.

LinkedIn Organic Content Analysis

Content Performance Summary

What Worked Best

- Event-Based Networking: "Bridging the Gap" posts (Aug 2) drove peak engagement, with one post hitting 99 interactions.
- Evergreen Authority: The May webinar continues to scale, contributing over 25k impressions this month.
- Decision Maker Reach: Successfully reached high-intent leads, with 35%+ of the audience being CXOs or Owners.

Why It Worked

- Community Relevance: Tagging events and niche peers (e.g., Liz Farr) successfully tapped into high-value networks.
- Niche Alignment: Content perfectly matched the target market, with Accounting and Consulting as top industries.
- Algorithm Long-Tail: Educational assets (webinars/podcasts) retained value, reaching new users months later.

Strategic Proposals

- Event Momentum: Plan "Post-Event Insight" series for every conference to capitalize on live engagement spikes.
- Follower Conversion: Offer exclusive resources (e.g., Notion SOPs) to convert high reach into long-term followers.
- Content Remixing: Update and re-share the top 3 evergreen posts to capture the newly gained audience.

Traffic - Ops Assessment	3 reco	167 Landing Page Views	\$0.43 Per Landing Page ...	\$20.00 Daily	\$71.72	10,184	9,807	Ongoing

- Results: 167 Landing Page Views, \$0.43 Cost per Result, \$71 Total Spent.
- Engagement: A 1.64% CTR and \$0.43 CPC are very efficient for a high-value B2B audience of accounting firm partners.
- Issue: The lack of a pixel and CRM integration creates a "black box" where we see traffic entering but cannot measure actual lead conversion or ROI.

Strategic Proposals

- Install Meta Pixel: Implement the pixel immediately to track "Assessment Starts" and "Completions" for conversion-based optimization.
- Test Lead Gen Forms: Launch an ad set using native Lead Gen Forms to capture emails directly, reducing the friction of the 15-minute external form. (Implemented)
- Micro-Diagnostic Hook: Test a shorter "2-minute" version of the assessment on the landing page to increase the conversion rate from the cost-efficient traffic we are buying.

Levy -Email 1 to Attendees	28	11	0	0	39%	0%	0%	0	0

Summary

- **CPA Academy Email 1:** Reached the largest audience (208 delivered) with a 17.1% open rate, but produced only one click and three unsubscribes.
- **CPA Academy Email 2:** Had the weakest open rate (16%) and similarly low click performance, indicating the subject line or message was less compelling.
- **CPA Academy Email 3:** Performed best within the CPA Academy sequence—17% open rate, highest click rate (0.50%) and zero unsubscribes—although it recorded one hard bounce.
- **Levy Email 1:** Achieved the strongest open rate by far (39%), likely helped by the smaller or warmer 28-person audience, but generated no clicks or conversions.
- **Overall:** Opens show some interest, but the sequence produced no conversions and only three total clicks, so the CTA, offer positioning and link prominence need improvement.

Recommendations for upcoming events

- Plan each event targets for registrations, qualified leads and scheduled discovery calls.
- Prioritize webinars as they have proven to attract larger audiences and produced results in the past; promote them through LinkedIn, email and paid retargeting.
- Build the complete webinar funnel: pre-event promotion, strong live CTA, attendee/no-show segmentation, 3–5 follow-up emails and direct sales outreach within 24–48 hours.
- Match each event to a specific offer: owner-bottleneck content → Operations Audit; metrics/profitability content → humanOS; complex operational challenges → custom engagement.
